Entrants may test their photos for suitability through the photo validator link on the e-DV website before submitting their entries. The photo validator provides additional technical advice on photo composition, along with examples of acceptable and unacceptable photos.

Compositional Specifications: The submitted digital image must conform to the following compositional specifications or the entry will be disqualified.

Head Position

- o The person being photographed must directly face the camera.
- o The head of the person should not be tilted up, down, or to the side.

Photographs of applicants with tribal or other headgear not specifically religious in nature will not be accepted; photographs of military, airline, or other personnel wearing hats will not be accepted.

Color photographs in 24-bit color depth are required. Photographs may be downloaded from a camera to a file in the computer, or they may be scanned to a file in the computer. If you are using a scanner, the settings must be for True Color or 24-bit color mode. Color photographs must be scanned at this setting for the requirements of the DV program.
